

CareDx Announces Pricing of Public Offering of Common Stock

BRISBANE, Calif., September 21, 2016 (GLOBE NEWSWIRE) -- CareDx, Inc. (Nasdaq: CDNA), a molecular diagnostics company focused on the discovery, development and commercialization of clinically differentiated, high-value diagnostic solutions for transplant patients, today announced the pricing of its public offering of 2.25 million shares of its common stock at a price to the public of \$4.00 per share. In addition, the Company has granted the underwriters a 30-day option to purchase up to 337,500 additional shares of its common stock. All of the shares will be offered and sold by CareDx.

Piper Jaffray & Co. is acting as sole manager for the offering.

The public offering will be made pursuant to a shelf registration statement on Form S-3 (File No. 333-206277) previously filed with and declared effective by the Securities and Exchange Commission (the "SEC") on December 4, 2015. The securities may be offered only by means of a prospectus. A preliminary prospectus supplement and the accompanying prospectus relating to and describing the terms of the offering have been filed with the SEC and are available on the SEC's website at www.sec.gov. Copies of the preliminary prospectus supplement and the accompanying prospectus, and when available, copies of the final prospectus supplement and the accompanying prospectus relating to the offering may be obtained from Piper Jaffray & Co., Attention: Prospectus Department, 800 Nicollet Mall, J12S03, Minneapolis, MN 55402, or by email at prospectus@pjc.com, or by phone at (800) 747-3924.

This press release does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

About CareDx

CareDx, Inc., headquartered in Brisbane, California, is a global molecular diagnostics company focused on the discovery, development and commercialization of clinically differentiated, high-value diagnostic solutions for transplant patients. CareDx offers AlloMap®, a gene expression test that aids clinicians in identifying heart transplant patients with stable graft function who have a low probability of moderate to severe acute cellular rejection (ACR). CareDx is developing additional products for transplant monitoring using a variety of technologies, including AlloSure®, a proprietary next-generation sequencing-based test to detect donor-derived cell-free DNA (dd-cfDNA) after transplantation.

CareDx, with its presence through Olerup, also develops, manufactures, markets and sells high quality products that increase the chance of successful transplants by facilitating a better match between a donor and a recipient of stem cells and organs. Olerup SSP® is a set of HLA typing products used prior to hematopoietic stem cell/bone marrow transplantation and organ transplantation. XM-ONE® is the first standardized test that quickly identifies a patient's antigens against HLA Class I, Class II or antibodies against a donor's endothelium.
